Tags: [toy](#) [ball](#) [spiral](#) [fidget](#) [fidgettoy](#) [balls](#) [hollow](#) [satisfying](#)

Elegant and satisfying fidget toy

Compatible with [Spiral Hourglass](#) and [Parametric Spiral Cone](#) with default parameters.

I printed the Hollow Ball by moving it ~1mm lower and using supports only for bottom part of it (no support for the top), and it turned out pretty well.

No supports needed for the Solid Ball.

You can support me and get Commercial Licence to sell physical prints on [Patreon](#) and [Boosty](#)!
